INVESTMENT OBJECTIVE AND STRATEGIES

The investment objective of Portland Private Income Fund (the "Fund") is to preserve capital, provide income and above-average long-term returns.

To achieve this investment objective, the Fund invests primarily in Portland Private Income LP, both of which invest primarily in a portfolio of private debt securities including private mortgage loans, private commercial loans and other debt securities.

Keystone investments:

- Private mortgage loans administered by MarshallZehr Group Inc. ("MarshallZehr").
- Private commercial loans managed by US based Business Development Corporations and Crown Capital Partners Inc. ("Crown Capital") through funds managed by Crown Capital and/or via co-investment opportunities.

Investments are secured mortgages, loans and participating capital with covenants.

Investments are generally short term in nature ranging from terms of 6 months to 5 years.

Liquidity may be managed by investing in complementary income producing public securities.

Allocation of invested capital between mortgage, commercial lending and other complementary opportunities is the responsibility of the Manager.

The Fund may from time to time borrow from a bank, prime broker, the Manager or its affiliates up to 25% of the total assets of the Fund.

FUND BREAKDOWN (As at March 31, 2018)

Investment Allocation

Mortgage Security Type

Mortgage Type

Debt Portfolio Breakdown by Term⁷

Crown Capital Fund IV, LP Breakdown by Sector

FUND COMMENTARY (As at March 31, 2018)

The portfolio is currently comprised of 41% MarshallZehr mortgages, 35% Crown Capital Partners Inc. (Crown) commercial loans, 6% in a maritime lending fund (see below), 6% in Portland Global Energy Efficiency and Renewable Energy Fund LP (PGEEREF), 5% in the listed and 7% in a portfolio of liquid securities.

A significant component of the portfolio's current investments consists of 27 mortgages in the Greater Toronto Area, Southwestern Ontario and Central Ontario including a variety of infill and intensification projects with what the Manager believes to be well-established developers located in areas of increased demand. The weighted average net interest rate of the mortgage portfolio at March 31, 2018 is 9.6%.⁵ The portfolio has no exposure to the condo market in downtown Toronto but has exposure in Ontario's retirement market. As

of March 31, 2018, the weighted average loan-to-value of the mortgage portion of the Fund's portfolio was 66.4%.⁶ and its securities consisted primarily of first mortgages.

In March 2017, we selected EnTrustPermal Ltd. as another Specialty Investment Manager to compliment the Fund's existing portfolio via its maritime lending fund. EnTrustPermal is a leading global alternative asset manager and is one of the world's largest hedge fund investors. EnTrustPermal provides portfolio and risk management services to the maritime lending fund. The maritime lending fund was launched in June 2017 with an initial size of U.S. \$216 million and has subsequently committed U.S. \$164 million to investments. The Fund's portfolio was an initial investor in the maritime lending fund having committed U.S. \$5 million, with 76.3% drawn as at March 31, 2018. The rest is expected to be called over the next few months.

(as at April 30, 2018)

In July, Crown increased the size of Crown Capital Fund IV, LP (Crown Fund IV) its fourth special situations debt fund, to \$225 million with the Fund's ownership being maintained at 15%. The Fund's commitment to Crown Fund IV as at March 31, 2018 was 81% drawn.

The portfolio of 11 commercial loans made through Crown Fund IV plus the exposure to the maritime lending fund, is diversifying satisfactorily in our view with: Petrowest Corporation/RBee Aggregate Consulting Ltd. (RBee) (Petrowest: infrastructure/energy services and post-receivership, RBee: construction/engineering); Bill Gosling Outsourcing (business process outsourcing services); Touchstone Exploration Inc. (oil & gas producer); Source Energy Services (frac sand supplier in hydraulic fracturing process); Solo Liquor Holdings Ltd. (liquor retailer); Marquee Energy Ltd. (oil and gas producer); Ferus, Inc. (energy services); Canadian Helicopters Limited (charter & private air services); Active Exhaust Corp (industrial machinery & equipment); Baylin Technologies Inc. (technology equipment, communications and networking) and EnTrustPermal (global maritime/shipping).

The portfolio's other investments comprise: cash; a debt holding in a Digicel Limited bond which matures March 1, 2023, its effective yield to the portfolio is 9.4% per annum; a selection of investment grade related preferred shares; four U.S. business development corporations; an equity holding in Brookfield Property Partners L.P., a multinational commercial real estate owner, operator and investor; an equity holding in Brookfield Business Partners L.P.; an equity holding in Transalta Renewables Inc.; a direct equity holding in Crown; and an exclusive investment in Portland's private offering in

renewable energy, PGEEREF. As at March 31, 2018, the total leverage of the portfolio was 6.4%, well within its borrowing limit to not exceed 25% of its total assets.

We remain confident that current investments, as well as a pipeline of investment opportunities, structured/arranged by MarshallZehr, Crown and EnTrustPermal should allow the Fund to provide its Series A and Series F unitholders with an 8% and 9% fully funded annual distribution, respectively.

POTENTIAL RISKS

While the Manager, MarshallZehr, Crown Capital and EnTrustPermal exercise due diligence throughout the lending process, no guarantees can be given to offset a risk of loss and investors should consult with their financial advisor prior to investing in the Fund. The Manager believes that given the character of the private debt investments that are making up the majority of the Fund's holdings, the Fund has less exposure to market risk than a similar fund invested in publicly listed securities. The Manager believes the following risks are key to the Fund's performance: nature of investments, credit, interest rate, general economic and market conditions, liquidity, marketability and transferability of units. Please read the "Risk Factors" section in the Offering Memorandum for a more detailed description of the relevant risks. Please read the "Risk Factors" section in the Offering Memorandum for a more detailed description of the relevant risks.
