INVESTMENT OBJECTIVE AND STRATEGIES

The investment objective of Portland Private Income Fund (the "Fund") is to preserve capital, provide income and above-average long-term returns.

To achieve this investment objective, the Fund invests primarily in Portland Private Income LP, both of which invest primarily in a portfolio of private debt securities including private mortgage loans, private commercial loans and other debt securities.

Keystone investments:

- Private mortgage loans administered by MarshallZehr Group Inc. ("MarshallZehr").
- Private commercial loans managed by US based Business Development Corporations and Crown Capital Partners Inc. ("Crown Capital") through funds managed by Crown Capital and/or via co-investment opportunities.

Investments are secured mortgages, loans and participating capital with covenants.

Investments are generally short term in nature ranging from terms of 6 months to 5 years.

Liquidity may be managed by investing in complementary income producing public securities.

Allocation of invested capital between mortgage, commercial lending and other complementary opportunities is the responsibility of the Manager.

The Fund may from time to time borrow from a bank, prime broker, the Manager or its affiliates up to 25% of the total assets of the Fund.

FUND BREAKDOWN (As at June 30, 2017)

Investment Allocation

Debt Portfolio Breakdown by Term⁷

Mortgage Security Type

Crown Capital Fund IV, LP Breakdown by Sector

Mortgage Type

FUND COMMENTARY (As at June 30, 2017)

The portfolio is currently comprised of 44% commercial mortgages, 37% commercial loans through Crown Capital Fund IV, LP (Crown Fund IV), 7% in a portfolio of liquid securities, 6% in Portland Global Energy Efficiency and Renewable Energy Fund LP (PGEEREF), 5% in Crown Capital Partners Inc. (Crown) and initially 1% in a maritime lending strategy (see below).

In March we selected EnTrustPermal Ltd. as another Specialty Investment Manager to compliment the Fund's existing portfolio via its maritime lending strategy. EnTrustPermal is a leading global alternative asset manager and is one of the world's largest hedge fund investors.

EnTrustPermal provides portfolio and risk management

services to this maritime lending strategy, which was launched in June 2017. The objective of this strategy is to seek to generate attractive risk adjusted returns by targeting direct lending opportunities to vessel owners by engaging in asset based financings secured by high-quality maritime assets. The maritime lending strategy is primarily engaged in lending to and investing in shipping companies, non-U.S. oil services companies and other maritime businesses and operations related directly thereto and is seeking to exploit the current twin dislocations in the shipping and European banking sectors by serving as an alternative source of liquidity to companies as traditional lenders reduce their activities.

In July, Crown increased the size of Crown Fund IV, its fourth special situations debt fund, to \$225 million. Crown Fund IV's focus is on deals of 5 years or less, Crown has a 36.5%

ownership of Crown Fund IV and the portfolio has a 15% ownership. The portfolio is one of a select few other initial limited partners, including the Investment Management Corporation of Ontario.

The portfolio of nine loans made through Crown Fund IV, is diversifying satisfactorily in our view with Petrowest Corporation (infrastructure/energy services), Bill Gosling Outsourcing (business process outsourcing services), Touchstone Exploration Inc. (petroleum), Medicare Inc. (pharmaceuticals), Source Energy Services (frac sand supplier in hydraulic fracturing process), Solo Liquor Holdings Ltd., (Liquor retailer), Marquee Energy Ltd. (oil and gas producer) and Ferus, Inc. (energy services).

A significant component of the portfolio's current investments consists of mortgages in the Greater Toronto Area, SouthWestern Ontario and Central Ontario including a variety of infill and intensification projects with what the Manager believes to be well-established developers located in areas of increased demand. The weighted average net interest rate of the mortgage portfolio at June 30, 2017 is 10.3%⁵. The portfolio has no exposure to the condo market in downtown Toronto but has exposure in Ontario's retirement market. As of June 30, 2017, the weighted average loan to-value of the mortgage portion of the Fund's portfolio was 67%⁶ and its securities consisted primarily of first mortgages.

The portfolio's other investments comprise: cash and short term notes; a debt holding in a Digicel Limited bond which matures March 1, 2023, its effective yield to the portfolio is just over 8.0% per annum; 14 investment grade rated preferred shares; four U.S. business development corporations; an equity holding in Brookfield Property Partners

L.P., a multinational commercial real estate owner, operator and investor; an equity holding in Brookfield Business Partners L.P.; a direct equity holding in Crown; and an exclusive investment in Portland's private offering in renewable energy, PGEEREF. As at June 30, 2017, the portfolio was borrowing \$2.8 million representing 4.3% of the total assets of the Fund.

We remain confident that current investments, as well as a pipeline of investment opportunities, structured/arranged by MarshallZehr, Crown and EnTrustPermal should allow the Fund to provide its Series A and Series F unitholders with an 8% and 9% fully funded annual distribution, respectively.

POTENTIAL RISKS

While the Manager, MarshallZehr, Crown Capital and EnTrustPermal exercise due diligence throughout the lending process, no guarantees can be given to offset a risk of loss and investors should consult with their financial advisor prior to investing in the Fund. The Manager believes that given the character of the private debt investments that are making up the majority of the Fund's holdings, the Fund has less exposure to market risk than a similar fund invested in publicly listed securities. The Manager believes the following risks are key to the Fund's performance: nature of investments, credit, interest rate, general economic and market conditions, liquidity, marketability and transferability of units. Please read the "Risk Factors" section in the Offering Memorandum for a more detailed description of the relevant risks. Please read the "Risk Factors" section in the Offering Memorandum for a more detailed description of the relevant risks.
