## INVESTMENT OBJECTIVE AND STRATEGIES

Based on the nature of the underlying components of this portfolio, the targeted distribution<sup>1</sup> is 5.4% per annum.

### Portland Private Income Fund

The keystone investments in the Portland Private Income Fund are:

- Private mortgage loans administered by: MarshallZehr Group Inc. (“MarshallZehr”)
- Private commercial loans managed by: Crown Capital Partners Inc. (Crown Capital Partner Funding, LP); and U.S.-based Business Development Corporations
- Infrastructure investments comprised of Crown Capital Power Limited Partnership, Brookfield Super-Core Infrastructure Partners (CAN) L.P., Brookfield Infrastructure Fund IV and the Portland Global Energy Efficiency and Renewable Energy Fund LP
- Maritime loans comprised of the EnTrust Global Blue Ocean Fund

The investments are secured mortgages, loans and participating capital with covenants. Investments are generally short term in nature ranging from terms of 6 months to 5 years. Liquidity may be managed by investing in complementary income producing public securities. Allocation of invested capital between mortgage, commercial lending and other complementary opportunities is the responsibility of the Manager.

The preferred class of units provide an additional source of borrowing to the Portland Private Income Fund. The Portland Private Income Fund may from time to time borrow from the issuance of preferred units, a bank, prime broker, the Manager or its affiliates up to 25% of the total assets of the Portland Private Income LP. Due to the borrowing restriction of 25% of the total assets of the Portland Private Income LP, the Portland Private Income Fund Preferred Units enjoy 4x asset coverage or better on its investments.

### Portland Focused Plus Fund

The Portland Focused Plus Fund employs the following core techniques:

1. focused investing in a limited number of long securities positions; and
2. leverage by purchasing securities on margin.

The Portland Focused Plus Fund has no geographic, industry sector, asset class or market capitalization restrictions and there is no restriction on the percentage of the Net Asset Value which may be invested in the securities of a single issuer.

\*Annualized

1. The Manager reserves the right to change the targeted annual distribution at its discretion.
2. See the offering memorandum for fee details.
3. Targeted distribution is 8% for Series A and 9% for Series F, paid annually based on the initial net asset value per unit of \$50.00, anticipated to be fully funded, paid monthly, net of Mortgage Administration/Specialty Investment Manager fees, management fees, trailer fees and expenses. Distribution rate for Series AP and Series FP is reviewed on a quarterly basis. Prime rate is based on the Royal Bank of Canada Prime Rate.

Fees may be associated with this investment program. Indicated rates of return are the historical annual compounded total returns and do not include fees. Investment returns are not guaranteed, their values change frequently and past performance may not be repeated.

Risk tolerance measures the degree of uncertainty that an investor can handle regarding fluctuations in the value of their portfolio. An investor's tolerance for risk depends largely on their personal financial circumstances including time horizon, liquidity needs, portfolio size, income, investment knowledge and attitude toward price fluctuations. Clients should only make investments that are suitable and consistent with their individual risk tolerance.
