INVESTMENT OBJECTIVE AND STRATEGIES

This portfolio looks to capitalize on the illiquidity discount present in the private equity asset class over the long term, while maintaining a sizable allocation to more liquid assets (public equities) in the Portland Focused Plus Fund.

Portland Focused Plus Fund

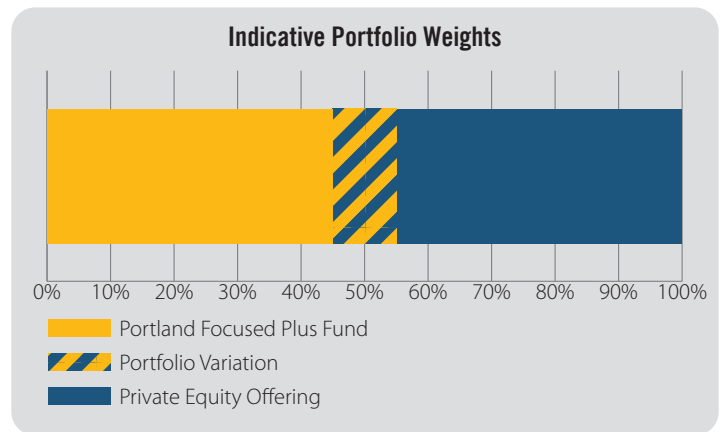

The Portland Focused Plus Fund employs the following core techniques:

1. focused investing in a limited number of long securities positions; and
2. leverage by purchasing securities on margin.

The Portland Focused Plus Fund has no geographic, industry sector, asset class or market capitalization restrictions and there is no restriction on the percentage of the Net Asset Value which may be invested in the securities of a single issuer

Private Equity Funds

Investments in Private Equity funds are subject to the availability of these funds at the time of enrollment in the SMA program. Assuming there are no private equity placements available for investment at the time of enrollment, funds will be invested entirely in the Portland Focused Plus Fund.

PORTLAND HIGH RISK FUNDS (LONG TERM)

(as at September 30, 2024)

*Annualized

Fees may be associated with this investment program. Indicated rates of return are the historical annual compounded total returns and do not include fees. Investment returns are not guaranteed, their values change frequently and past performance may not be repeated.

Risk tolerance measures the degree of uncertainty that an investor can handle regarding fluctuations in the value of their portfolio. An investor's tolerance for risk depends largely on their personal financial circumstances including time horizon, liquidity needs, portfolio size, income, investment knowledge and attitude toward price fluctuations. Clients should only make investments that are suitable and consistent with their individual risk tolerance.
