PORTLAND'S INVESTMENT PHILOSOPHY

- We are long term investors taking an owner/operator perspective to security selection.
- We manage low turnover concentrated portfolios.
- We tend to favour capital light businesses with durable competitive advantages and which benefit from long term growth trends.
- As active managers, we are agnostic to sector allocation or benchmark weighting.
- Geographically, we have global expertise with a focus and bias towards Canada, North America and the Caribbean.
- We emulate the pre-eminent pension plans, endowment funds and family offices in offering access to a breadth of private and alternative investment solutions.
- At Portland, as owners, operators and investors in excellent businesses globally, we practice 15 rules for creating wealth.

WHAT IF THERE WERE 15 RULES FOR CREATING WEALTH...IN THE REAL WORLD?

At Portland, as owners, operators and investors in excellent businesses globally we practice these rules and practice makes perfect.

Any successful wealth creator in the world will have applied the same principles to their business philosophy.

First, there are 5 Laws of Wealth Creation:

- Own a few high quality businesses
- 2. Thoroughly understand these businesses 🗸
- 3. Ensure these businesses are domiciled in strong, long-term
 growth industries
- 4. Use other people's money prudently 🗸
- 5. Hold these businesses for the long run \checkmark

But at Portland we use ten more principles to filter out the best public/traditional and private/alternative investment opportunities:

- 6. Owner of the business is also the Operator of the business 🗸
- 7. Ownership is heavily concentrated 🏏
- 8. Key Shareholders are personified in the company and vice versa 🗸
- 9. Autocratic management style 🗸
- Entrepreneurial management style
- 11. Low turnover in management positions 🗸
- 2. Symmetrical risk and reward for management businesses 🗸
- 13. Businesses set goals for the long term 🗸
- 14. Board focus on growth 🗸
- 15. Value of business is based on fundamentals: sales, market share and margins
